# Lake Discharges

Average annual lake discharge volume over the simulation period of record when stress and damaging discharge at S79 and S80, respectively.

# Flood control discharges

Average annual flood control discharges from Lake Okeechobee to Water Conservation Areas and Northern Estuaries over the simulation period of record.

# Load

Average percent difference from FWO (NA25) for discharge and estimated nutrient loads over the May 1965 - April 2016 (FL WY 1966 - 2016) period of simulation.
